

*Treefalls: New Music* is a 501(c)(3) non-profit organization that is dedicated to the presentation of contemporary chamber music written by living, active composers. Through a series of free concerts, *Treefalls* endeavors to offer the public inventive and creative new works performed by professional musicians who support New Music. We will select fresh, original pieces from our open Calls for Scores, Commissioning Projects, and active research in the field.

*Treefalls* strives to transform current opinion of concert hall music – if only a little – and inspire a new generation of composers and performers in our community.

rounded binary  
*Rachel Lanik Whelan*

**globalbike** is a not-for-profit organization that uses the transformative power of bicycles to connect women and girls in rural Tanzania with the life-saving resources they need to prosper sustainably. Since 2006, globalbike has been transforming lives and communities with the power of bikes.

In 2013, **globalbike** began to focus on connecting women and girls around Mt. Kilimanjaro, in Tanzania, to necessary resources for daily living; namely healthcare, education, and economic opportunity. Our research indicates that connecting women, to these vital resources increases opportunities for higher education, improves access to health care for families, reduces rates of infant mortality, and ultimately increases the chance for a community to rise out of poverty.
